The County Board reviewed the following reports:

- 1) Fund balance report
- 2) 2007 annual report of PrairieLand RC & D

Pursuant to published legal notice to bidders in the January 24, 2008 and January 31, 2008 editions of The Norfolk Daily News, sealed bids for furnishing a belly dump trailer for Road District #1 were received. Road/Bridge foremen Arland Gross and John Hrabanek and four sales representatives were present during the bid opening. Bids received from the following companies were opened and read aloud:

Murphy Tractor & Equipment Company, Grand Island, Nebraska
Siouxland Trailer Sales, Inc., Sioux City, Iowa

After review of the bids, it was moved by Klein and seconded by Uhlir to accept the bid of Siouxland Trailer Sales for the purchase of a 2009 Trailblazer belly dump trailer in the amount of \$38,225. Roll call vote: Ayes, McCallum, Uhlir, and Klein. Nays, none. Motion carried.

Pursuant to published legal notice to bidders in the January 24, 2008 and January 31, 2008 editions of The Norfolk Daily News, sealed bids for supplying asphaltic materials to the county were received. Road/Bridge foremen Arland Gross and John Hrabanek and three sales representatives were present during the bid opening. Bids received from the following companies were opened and read aloud by County Highway Superintendent Richard Johnson:

Flint Hills Resources, Omaha, Nebraska

Jebro, Inc., Sioux City, Iowa

Sem Materials, Grand Island, Nebraska

During reading of the bids, County Highway Superintendent Richard Johnson reported that the bid submitted by Flint Hills Resources reflected unit prices per ton instead of per gallon as requested on the bid documents. In addition, he reported that Sem Materials submitted a bid for 100,000 gallons of SBEE and that the CSS 1 and CRS-2P products would be available after June 1, 2008.

Chairman Jerry McCallum stated that the county wants to use the SBEE product and the bid submitted by Sem Materials is the same price that the county paid during the last construction season. He recommended accepting the bids submitted by all the companies because if asphaltic material becomes hard to obtain and one company can't furnish the product then the county would have the option to purchase from another company. County Highway Superintendent stated that, in his opinion, the County Board could not accept the bid submitted by Sem Materials for SBEE because the other two vendors did not have an opportunity to bid on the product. Valerie Schick, a Jebro representative, responded that Jebro couldn't bid on this product because SBEE is a patented product. She explained that Jebro could submit a quote on a similar product; however, she doesn't have a problem with the Board accepting the Sem Materials' bid for SBEE. Commissioner Klein recommended accepting the bids from all companies except the SBEE product.

After discussion, it was moved by Klein and seconded by Uhlir to accept the bids submitted by Flint Hills Resources, Jebro, Inc., and Sem Materials for providing HFE 150, HFE 300, CSS 1, CRS-2P, and CRS2 asphaltic products, with the stipulation that the products purchased from Flint Hills Resources be billed to the county by the gallon and not by the ton and with the understanding that CSS 1 and CRS-2P provided by Sem Materials is not available until June 1, 2008. Roll call vote: Ayes, McCallum, Klein, and Uhlir. Nays, none. Motion carried.

Pursuant to published legal notice on the Thursday, January 24, 2008 edition of The Norfolk Daily News, Chairman McCallum opened a public hearing at 10:35 A.M. to receive citizens' comments on the road construction program for 2008 and the six-year road improvement plan. Road/Bridge foremen Arland Gross and John Hrabanek, one member of the public, and

one member of the media were in attendance during the hearing.

County Highway Superintendent Richard Johnson reported that the county must file a one and six year road improvement plan with the Board of Classifications and Standards by March 1st of each year. He presented a map reflecting the various road districts in the county and presented a summary of the proposed programs for each road district.

Mr. Johnson reported that plans for Road District #1 include improvements on 7 miles of roads in the one year plan and improvements on 9½ miles of road and replacement of one structure in the six year plan. He explained that the major project in Road District #1 is the Lindsay Road which is a six-mile grading and asphalt project from Highway 32 south to the county line. He explained that the entire six miles have been completed graded and cold mix was applied to the south three miles in 2007. He reported that there will be touch up grading to be completed on the north three miles in the spring and when the frost comes some of the banks will need to be improved and permanent seeding completed. In addition, he reported that shoulder work needs to be completed on the south three miles. Mr. Johnson explained that the county intends to apply cold mix asphalt on the north three miles in 2008 with future plans to apply a hot mix overlay on the entire six miles. Chairman McCallum responded that application of the cold mix asphalt to the north three miles on the Lindsay Road will depend upon how much the other two road districts will use the reclaimer since the machine must be shared between all road districts.

Mr. Johnson reported that plans programmed for Road District #2 include 4 miles of road and one bridge in the one year plan and 19 miles of road and two bridges in the six year plan. He explained that the major road project for District #2 is improvements to Victory Road from Eisenhower Avenue one-half mile north. He reported that in conjunction with the ethanol plant and the City of Norfolk, the road into the ethanol plant will be paved. In addition, he reported that the other major project planned in Road District #2 is the bridge over the north fork of the Elkhorn River.

Mr. Johnson reported that plans for Road District #3 include 10 miles of road and one bridge in the one-year plan and two bridges in the six-year plan. He explained that 2½ miles of hot mix overlay is planned for completion in 2008.

Mr. Johnson reported that the Federal Highway Administration is setting up new regulations for right-of-way acquisition. He explained that the Federal Highway Administration is concerned that counties have been violating landowners' rights when acquiring right-of-way. He reported that the revised regulations stipulate that the county can ask the landowner to donate the right-of-way; however, if the landowner refuses, the county must get an appraisal and follow additional procedures. He stated that if the regulations are violated it jeopardizes the receipt of federal aid funds for the project. Chairman McCallum stated that the county road plans must include projects that will be completed or it may jeopardize receipt of future federal funds.

No comments were received from the public. Chairman McCallum closed the public hearing at 10:46 A.M. After discussion, the following resolution was introduced:

RESOLUTION #2008-11

WHEREAS, pursuant to published legal notice, public hearing on the one year and six year Road Improvement Programs for Madison County was held, and

WHEREAS, Richard C. Johnson, Madison County Highway Superintendent has presented the one year and six year Road Programs, and

WHEREAS, said Road Programs, as presented, have been given due consideration,
 NOW, THEREFORE, BE IT RESOLVED, that the one year Road Program and the six year Road Program, as presented,
 are hereby accepted.

Motion made by Uhlir and seconded by Klein that the foregoing resolution be adopted. Roll call vote: Ayes, McCallum, Uhlir, and Klein. Nays, none. Motion carried.
